PREFACE

This fourth permanent cumulation of the Art Index covers, in general, the period from October 1938 to September 1941. Some one hundred and twenty-five periodicals, museum bulletins, etc. in English, Dutch, French, German, Italian and Spanish have been indexed. In addition, occasional important articles in periodicals not regularly indexed have been added. For example, the archeological articles from *Asia* have been indexed for this period. The general subjects coming within the scope of the Art Index are Archeology, Architecture, Ceramics, Decoration and ornament, Graphic arts, Industrial and applied design, Landscape architecture, Painting and Sculpture.

The following titles have merged with other publications or have been discontinued:

L'Amour de l'Art
Baltimore Museum of art. Quarterly
Bollettino d'Arte
British Museum Quarterly
Brooklyn Museum Quarterly
Museum of Northern Arizona. Museum Notes
Parnassus
Toledo Museum of Art. Children's Museum News

The following titles have been added:

Archiv Español de Arqueologia
Art Quarterly
Arti
Baltimore Museum of Art News
Brooklyn Museum News
Plateau
Prométhée

Of the foreign periodicals, some have definitely ceased publication, some have suspended publication temporarily, and some may be publishing issues which fail to reach America. The latest issue which has been indexed is indicated in the List of Periodicals. The missing numbers will be indexed as soon as they are received and will appear in later volumes of the Art Index.

A compilation of this nature is possible only through the cooperation of many people, each being responsible for certain phases of the work. Though the assistants must remain anonymous, their loyal cooperation is none the less appreciated.

S. St. J.

Suggestions For the Use of The Art Index

Arrangement

Authors and subjects are arranged in one alphabetical file. Under authors and subjects, titles are filed by the first word, initial articles being disregarded. Under personal names titles *by* an author precede those *about* him. Subdivisions of a subject are arranged alphabetically or chronologically under the subject, country subdivisions following the form subdivisions. Under some subjects the arrangement has been by town or locality, as in Bank buildings; state subdivisions under Architecture, Domestic, etc.

Collation

Following the title are noted the kind of illustrations which accompany the article, (in abbreviated form) and also any bibliographies or bibliographical footnotes of importance. Only that collation which pertains to the heading under which an article is listed is given in that entry. For example, under an author's name, the only items given are portraits and bibliography unless the author is the illustrator, while under the subject is given plates, plans, etc., but not the portrait of the author.

Exhibitions

An exhibition of an individual artist is indexed under the artist's name whenever biographical or critical information is given.

Illustrations

Titles of works of art (up to ten) accompanying the text of an article are listed in a note unless they appear in the title of the article or are not descriptive; in this case the number is given. Individual works by an artist, without text, are arranged by titles alphabetically under the subdivision Reproductions under the name of the artist. When the same title appears in more than one periodical, entries are combined under one title, the preference being given to the English form, or to the language of the artists.

References

See references have been made from various forms of personal names and subject headings to authorized forms. *See also* references are made from subjects to related subjects.
